Judy,

The email chain below explains the situation relatively well so I won't repeat what is said below. Long story short, there was some surplus from the Route 637 Bridge Replacement project (UPC 91586) and I could really use it on the Blue Springs Road project (UPC 104244). Thanks for the help.

Can you get an email from the County wherein they request the transfer of these funds? They need to simply say something to the effect of please "transfer $32,342 from UPC 91586 to UPC 104244".

You simply need to increase the estimate on UPC 104244 to account for the extra $32,342.

Forward me any email you get from the County and we will take care of the PD-24.

Yes. UPC 104244. I can adjust the estimate accordingly.

Chris,

Do you have any Montgomery County Revenue Sharing projects that you need money for? We have identified $32k (½ State, ½ local) that we could move.

Anthony,
This is the project in Montgomery Co. we spoke about this morning. It currently has a surplus of $32,342. We are in the process of closing out this project. Therefore, if you could let me know where you would like these funds transferred, I will get with Debbi to get it done.
