

COUNTY REVAMPS WEB BASED REAL ESTATE INFORMATION

MontgomeryCountyVA.gov

June 29, 2010

Montgomery County, Virginia – Montgomery County recently launched a web-based real estate information feature on www.montgomerycountyva.gov.

The real estate information search tool is found at <http://realestate.montva.com>, under the “services” section of the home page or linked from the Commissioner of Revenue’s home page. The feature provides an easy-to-use interface to search for property information by owner name, property address or parcel ID. Advanced and map search methods are also available.

Each parcel contains a profile listing the owner, parcel and legal descriptions, assessed value, detailed dwelling descriptions of residential property, commercial building descriptions and information about outbuildings or additions to the primary building. There are also maps showing the selected parcel and surrounding parcels and roads and a sketch of the primary property.

The Commissioner of Revenue’s Office, Information Technology and other staff worked on the project to improve the accessibility of information currently available on traditional parcel card reports. The real estate information search will also be a useful tool for property owners to view reassessment information when notices of reassessed values are mailed in the fall.

For more information or to report discrepancies or errors, please contact the Commissioner of Revenue’s Office at (540)382-5717 or email assessorsoffice@montgomerycountyva.gov.
